1 The rise of Spanish tech

2 Ecosystem today

3 Outlook

Spanish startups raised €2.2B in 2023 (across 850+ funding rounds).

VC investment into Spanish startups, annually » [View top rounds](#)

■ \$0–1m (pre-seed)
 ■ \$1–4m (seed)
 ■ \$4–15m (series A)
 ■ \$15–40m (series B)
 ■ \$40–100m (series C)
 ■ \$100–250m (mega rounds)
 ■ \$250m+ (mega+)

Early-stage investment is at an all time high.

- €4–15m (series A)
- €1–4m (seed)
- €0–1m (pre-seed)

Breakout stage remains strong.

- €40–100m (series C)
- €15–40m (series B)

Late stage was quiet: only 2 megarounds, Denodo Technology and Fever.

- €100–250m
- €250m+

“The evolution of the Spanish tech ecosystem in the past 10 years has been tremendous.”

Last year, as in many other geographies, overall investment volume was down, but one positive sign is that early stage activity (pre-seed to Series A) remains very healthy. We’re very confident that several companies being funded now will become scaleups in the next 5 to 10 years.”

Jaime Novoa

Partner @ Kfund

Borja Cabezón

CEO @ ENISA - Empresa
Nacional de Innovación

***“The future of a country must be built by innovation. Spain is aware of this and nowadays, we use all kind of tools that allow us to be an increasing partner in the startups’ ecosystem in Europe.*”**

So, we demonstrate that public and private funding does not only work, but also generates a boosting economy and a better society. The direction being taken by ENISA is inexorably leading us to forge a progressively sustainable economic development.”

- 1 The rise of Spanish tech
- 2 Ecosystem today
- 3 Outlook

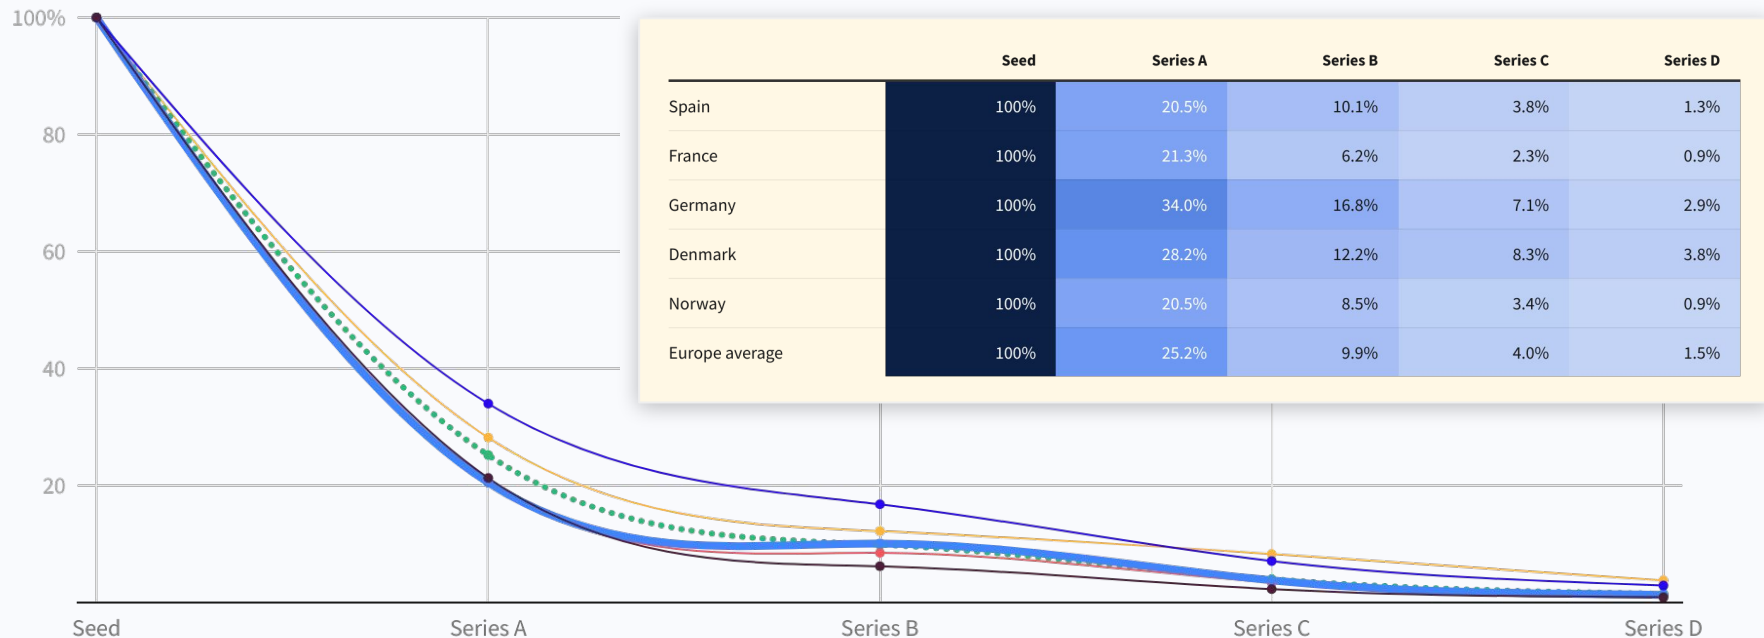

Spain is showing a promising funnel of startups, breakouts and scaleups.

Graduation rate of Spanish startups: below European average at Series A, similar at Series B+.

Graduation rate of startups founded between 2015 – 2020, from seed

Spain — France — Germany — Denmark — Norway — Europe average

Success breeds success: Spanish unicorns have produced dozens of alumni founders.

*“A unicorn that doesn't
breed even more
unicorns is just an
endangered species”*

Linda Rottenberg

Cofounder & CEO @ Endeavor

endeavor

Spain ranks 7th by university spinouts value created.

Source : Dealroom.co Data as of 27 Nov 2023 University value creation is ranked by multiplying the number of startups at every stage of maturity for a score 2 for a VC-backed startup to 100 for a unicorn. Spinouts policies vary from country to country. Countries like France and Sweden are hard to compare due to the professor privilege model, where universities have no stake in any research innovation coming out of the activities carried out there. The definition of spinouts and their comparison with other countries like UK, Germany and Switzerland is therefore challenging. Some universities such as KTH collaborated in sharing detailed data for a fair comparison. The ranking might evolve with better involvement of more universities.

European countries by spinout value created

Spanish investors are most active at early stage.

Spain Rest Of Europe United States Asia Rest Of World

Breakout stage switched from US to non-Spanish European investors.

Spain Rest Of Europe United States Asia Rest Of World

Late stage increasingly funded by the US.

Spain Rest Of Europe United States Asia Rest Of World

Foreign investors still contribute to most VC investment raised, though the participation of cross-border investors (Spanish and foreign investors investing in the same round) is rising.

Number of rounds in Spanish startups by location of investors

VC investment in Spanish startups by location of investors

Number of unique investors has increased dramatically since 2019.

Number of Corporates investors reached a record in 2023.

Number of unique investors into Spanish startups

Share of Corporate participation is at an all time high.

Number of rounds in Spanish startups by investor type

240+ funding rounds with Corporate or CVC participation since 2023

Methodology.

What is a startup?

Companies designed to grow fast. Generally, such companies are VC-investable businesses.

When startups are successful, they develop into scaleups (>50 people), grownups (>500 people) and result in big companies. Only companies founded since 1990 are included in this report.

Blog post: [What is a Startup?](#)

What is a unicorn?

Unicorns are (former) startups that reached US\$ 1B valuation or exit at one point in time.

Blog post: [What is a Unicorn?](#)

Underlying Data

Dealroom's proprietary database and software aggregate data from multiple sources: harvesting public information, user-submitted data verified by Dealroom, data engineering. All data is verified and curated with an extensive manual process.

The data on which this report builds is available via [app.dealroom.co](#). For more info please visit [dealroom.co](#) or contact support@dealroom.co. Data for this report was taken in March 2024.

Venture Capital, Investors

Investment are referred to by their round labels such as Seed, Series A, B, C, ... late stage, and growth equity. VC investments exclude debt, non-equity funding, lending capital and grants.

Regional Breakdown

While many startups founded in Spain relocate beyond their borders, most maintain business-critical ties to their homelands.

In order to take this reality into account, the first chapter of this report includes both Spain-based startups, which maintain their main center of business (HQ) in their country of origin, and Spain-founded startups, which relocated their HQ outside of Spain.

What is a female-founded startup?

A female-founded startup is defined by the identification of at least one woman self-identifying as a founder or co-founder, typically sourced from legal filings, websites, social media, and media coverage.

While the majority of founders hold influential positions such as CEO or CTO/CSO, not all (co-)founders need to be actively involved in the startup's operations

Deep dive: [Women-founded startups in Europe](#)

What is a Climate tech startup?

Climate tech includes startups working on innovative technologies solutions designed to address climate change and its environmental effects. This can be done by reducing GHG emissions or adapting our systems to environmental changes.

Within the broad spectrum of climate tech, we find different types of technology, such as hardware, software, API, IoT, and biotech. Climate applications span a wide set of industries and sectors.

Tech ecosystem intelligence

Dealroom.co is a global intelligence platform for discovering and tracking the most promising companies, technologies and ecosystems. Clients include many of the world's foremost organizations such as Sequoia, Accel, Index Ventures, McKinsey, BCG, Deloitte, Google, AWS, Microsoft, Stripe.

Dealroom partners closely with local tech ecosystem development agencies and enablers, to create a comprehensive multi-dimensional blueprint of the tech ecosystem, including capital, talent, innovation, entrepreneurship and overall economic dynamism.

Leading early stage fund in Southern Europe and LatAm

Kfund is a multi-stage, multi-product fund family that supports entrepreneurs in Southern Europe and Latin America. With over €500 million in assets, the fund invests from the pre-seed stage to Series B, offering checks ranging from €100,000 to €15 million.

Helps innovative and technological companies grow

BBVA Spark is BBVA's comprehensive proposal of financial services to support innovative companies in their different growth stages.

Spark allows these companies to cover all their financial needs in one place, as well as provides them with sophisticated financing products such as venture debt or growth loans.

To do this, BBVA Spark offers a differential relationship model with a team of specialists who speak the same language of high growth companies.

Leading global community of, by, and for High-Impact Entrepreneurs

Today, Endeavor's network spans more than 40 countries and supports more than 2,500 entrepreneurs, whose companies generate combined revenues of over \$50B, have created more than 4.1M jobs, and, in 2022, raised over \$60B in equity capital.

Endeavor's unique entrepreneur-first model and network of trust provide a platform for founders to dream big, scale fast, and pay it forward to the next generation of entrepreneurs..

Early-stage VC investing in B2B SaaS founders

GoHub Ventures is an early-stage venture capital fund investing in founders with highly technological B2B software solutions, from Seed to Series A across Europe, North America, and Latam.

Backed by 90 million euros distributed in two different funds, GoHub Ventures invests in differentiated solutions that help optimize and automate cross-cutting processes for any type of industry. Its portfolio, consisting of 28 startups, includes companies from the United States, the United Kingdom, Argentina, Chile, Colombia, and Spain.

Telefónica's Corporate Venture Capital and its Open Innovation platform

Wayra covers direct investments in startups in seed and growth stages (€50k to €5M), with the capacity to generate business with Telefónica; indirect investments as LP in +10 strategic funds in key markets such as the US and Israel; and investments as CVC as a Service for Telefónica Group companies. Since 2011, Wayra has invested €233M in +1,100 startups and currently has +530 startups in its portfolio, of which +190 work with Telefónica

With teams operating in 9 countries, Wayra provides innovation services and opens its innovation platforms (Alaian and Open Future) to third parties.

Brings together Venture Capital & Private Equity firms in Spain

SPAINCAP is the association that brings together Venture Capital & Private Equity firms in Spain, as well as their investors, including insurance companies and pension funds. The members of SPAINCAP make mid- to long-term investments in unlisted companies, from start ups to consolidated companies, providing not only stable financing through equity, but also innovation and management support.

The Association's mission is to connect the players in the industry in Spain, representing their interests before the Government, media and public opinion, both nationally and internationally, through alliances and synergies in Europe and Latin America.

Leading public institution supporting entrepreneurship

ENISA is a State-owned company that belongs to the Ministry of Industry and Tourism, whose mission is to help viable and innovative projects, driven by entrepreneurs or small and medium-sized Spanish companies, to find the necessary financing to develop and compete in a global market.

This financial boost takes the form of participative loans of between 25,000 and 1,5 million euros. It is a financing alternative that is particularly suited to the needs of SMEs and requires no collateral or guarantee other than a solid business project and the professional solvency of its management team. Since 2022 ENISA has taken on the role of certifying entity for start-ups wishing to take advantage of the fiscal and social benefits of the so-called Startups Law, a pioneering legislation in Europe that creates a favorable legal environment for the growth and success of start-ups. Also it is involved in authorizing the residence of foreign entrepreneurs.

At year-end of 2023 ENISA has granted 8,685 loans to 7,580 companies, for a total amount of more than 1,332 million euros invested.
